Develop a Family Communication Plan

Ask an out of state friend or relative to serve as the family contact. After a disaster, it is often easier to call long distance. Make sure all family members know the contact person and their number. Know all your families' cell phone numbers.

Develop a Family Evacuation Plan

In an emergency, pick a location outside of your home (oak tree, neighbor's) to go and meet if necessary. Also have a location away from your neighborhood (mall, church) to go and meet if necessary. Have every family member know the locations.

A **Disaster Supplies Kit** should be prepared ahead of time and consist of materials your family and pets would need to survive 3-7 days without water. This is the same type of kit that should be in place to survive the aftermath of a hurricane or blizzard. A list of what you need in this supplies kit can be found at <http://th.walpole.ma.us/LEPC.htm>.

Please fill out your own personal Family Communication/Emergency Plan, review it with your family and keep it current. You can download plans from <http://th.walpole.ma.us/LEPC.htm> and personalize them (just fill in the blanks). Why not do it today?

This was funded by the MA Dept. of Public Health in conjunction with the Walpole Board of Health and the Walpole Local Emergency Planning Committee.
